OBJECTIVE

Aspiring Software Engineer Proficient in Java, Sql, Oops Concepts. Skilled in web design, and problem-solving .Front-end development expertise in HTML, CSS, JavaScript & React. Eager to contribute in technical solutions to a utilize my skills . Open to exciting opportunities in the tech industry.

EDUCATION

Under Graduate , Vishwakarma Institute of Information Technology, Pune	2021-2023
Electronics and Tele-Communication Engineering	CGPA 8.77
Diploma , Gramin Technical and Management Campus Vishupuri Nanded	2018 - 2020
Electronics and Tele-Communication Engineering	86.53%

SKILLS

Technical Skills	Java, SQL, Oops Concept, C, Data Structures, Html, Css, Javascript & React.
Soft Skills	Team Work, Eagerness to learn, Dedicated towards work.

TRAINING

Organization:	Cuvette.tech
Course:	MERN Stack Developer
Skills:	Html Css Javascript Git React Nodejs MongoDB
Duration:	Nov 2023 - Present

PROJECTS

Dice Game [Deployed Here](#)

A dynamic React dice game! Utilizing React hooks, like useState, for seamless state management, and Styled Components for a sleek design. This project deepened my React understanding, refining state management and styling skills.

TextUtils [Deployed Here](#)

TextUtils is React-based application with responsive user interfaces. Users can effortlessly convert text to upper-case or lowercase, clear the content with a single click, and toggle between dark and light modes for optimal readability.

Rock Paper Scissors Game [Deployed Here](#)

Rock Paper Scissors, Build using HTML, CSS, and JavaScript. Project delivers responsive design, visually appealing CSS styling, and dynamic gameplay powered by JavaScript logic. Click to make your selection and witness real-time outcomes.

CERTIFICATIONS & ACHIVEMENTS

- Core Java
- SQL For Beginner
- Successfully solved 125+ problems on the LeetCode platform.
- Achieved a 4-star rating in problem-solving skills on HackerRank.
